Professional Summary

Motivated Computer Science student with a strong foundation in technical troubleshooting, debugging, and problem-solving. Experienced in managing data systems and web technologies through internships and academic projects. Committed to ensuring operational stability and delivering efficient technical support while quickly adapting to new desktop management tools and business system environments.

Education

Bachelor of Computer Science & Engineering (2025 – 2028)
Swami Vivekananda University, West Bengal

Diploma In Computer Science and Engineering (2022 – 2025)
Brainware University, West Bengal

Higher Secondary Education (2020 – 2022)
Rathipur Barada Banipith High School, West Bengal

Technical Skills

- **Core Skills:** Microsoft Windows Desktop Management, OS Troubleshooting, Remote Support.
- **Service Management:** Incident Management, Technical Documentation, JIRA.
- **Engineering Skills:** Problem-Solving, Debugging, Logical thinking.
- **Programming & Fundamentals:** C, Java, JavaScript, Node JS.
- **Web & Databases:** MySQL, MongoDB, Firebase, HTML, CSS.
- **Tools & Platform:** VS Code, GitHub, Postman.

Academic Projects

E-Panchayat Web Portal - *Sep 2025 – Nov 2025*

- Built a digital portal for citizen services, ensuring operational stability and secure user access.
- Managed data systems and resolved technical bugs to ensure seamless service delivery.
- Streamlined digital processes for form submissions and automated certificate downloads.

Certificate Storage Management System - *July 2025 – Aug 2025*

- Developed a centralized system for secure digital record management and retrieval.
- Performed issue analysis and resolution during the development phase to maintain system integrity.
- Documented technical procedures to improve system maintenance and troubleshooting efficiency.

Internship

- ***Node.JS Internship at WebHibe -*** *Oct 2024 - Dec 2024*
  Resolved technical incidents and ensured backend stability. Performed root cause analysis and maintained technical documentation.
- ***Systems & Web Intern at Digontom Pvt. Ltd -*** *Jun 2024 – July 2024*
  Provided technical troubleshooting for system availability, conducted issue analysis on application components, and documented fixes to improve support efficiency.

Hackathon

Participation – SIH *Aug 2024*

Developed rapid prototypes and collaborated in a team environment to solve complex technical challenges.

Applied logical thinking and debugging skills to resolve system bottlenecks under tight deadlines.

Certifications

- Deloitte Data Analytics Certificate *Sep 2025*
- Certificate of Participation for Internship Common Aptitude Test from LCAT *Sep 2025*
